Tug "Joanna E"

by Ballast

26th Oct 2018

Tug "Joanna E"

Partial rebuild project. It is a 1/24 scale Thames Tug which has a superstructure that is wrong and out of scale. I intend to rebuild the superstructure and make it more like a Thames Tug but not replicating any particular Tug as there are too many discrepancies in the build up of the hull which I do not want to alter as I am on a tight budget. I am building her and naming her in tribute to my long suffering partner to my hobbies, Jo. Photo of her as is. More photos to follow as progress is made.
