Palamo's Fishing boat

Well it's winter here in Hamilton Ontario & I decided to R/C a kit by Ocio Creativo 1/45 scale length 410 mm fishing boat .The model is a static kit so the trick will be installing all the R/C equipment . The challenge is the bulk heads are solid & will need to be modified for motor ,stuffing box , battery ,Etc .

8th Feb 2019

Frames glued up & water test.

Just a couple more photos of the fishing boat & sealed hull with gorilla wood glue then a coat of 2 part finishing epoxy in the inside . The boat is small enough to float in the kitchen sink
