## Operating horn

by Commodore-H

13th Apr 2019

### Operating horn

I'd like install a working horn in several of my models, but haven't found the right one yet. I tried one from RAM, but volume is too low. I tried many things to increase the volume but no success. To be heard outside on the lake you need it pretty loud. Don't like spending too much on this. Anyone have any good suggestions?
