BC Seiner

by Brightwork

5th Jan 2020

BC Seiner

I was lucky enough to acquire this vessel from Weston Jenkins. It was scratch built by his father(Jim Jenkins) in Sooke in '84. Beautifully done. A real craftsman. Note all the fittings including winches etc. all electric. She has some hull damage, but nothing that cannot be repaired. I will probably be messing around with her for over a year just to slowly get her back in shape. At that point I would like to RC her. Enjoy the pics... And a special thank you to Jim Jenkins.
