Chris Craft Constellation

just a little video on fake deck planking

24th May 2020

Chris Craft Constellation

Just a little update tried different color schemes & finally decided on the gloss almond for hull & cabin added the antenna hope I don't knock it off Weather getting better still no where to sail yet . Even though thinks are starting to open up it still not safe yet so be careful out in the world & stay safe . Have to glue the deck down & put all the electronics in & make those dreaded window glass frames which I hate doing .
