Model Trawler

Greetings from Australia Since the Corona Virus and lock Down. I have not been out of the house for a month, I had started building my Constant Star North Sea Trawler about 6 months ago but due to the virus and lock Down I have spent more time working on it. Here are my progress photos. More to go yet. Sid

Finally finished Constant Star.

Greetings from Australia. I have finally completed my North Sea Trawler after about 10 months and one gall bladder operation. It has been a great project. I am now thinking about my next build. Regards to all in Covid19 land. Sid
