Chris Craft Constellation

by GARTH

15th May 2020

Chris Craft Constellation

I think my Chris Craft is becoming a piece of furniture as I like the stained wood look rather than painted .Remade rudder as it was to short inside model & replaced the motor as all the motors I had where high speed but I did find a 12 volt motor that had better speed control on 7.2 volt battery's . Hope I'll have some place to sail as a lot of parks are closed & water may be contaminated with the virus just kidding. Hope every one stays safe & we can still enjoy this summer as soon as it gets warmer .
